Program approved by	Prof. Suchita Sayaji, Principal, Pillai HOC College of Architecture
Brief about the activity/event	Students were briefed about landscape architecture and basics of plant physiology. A tree identification activity was conducted through a walk in the college campus. Students identified trees with the help of information delivered during the briefing and a plant identification app named Leafsnap. Each student made observations on one specific tree of their choice and researched about the tree in detail. All observations and research were put down in two A1 size posters. Students were also given a quiz where each student answered two questions and made a 'Did You Know' flyer for the same.
