### Distribution of Protective Face Shields for front-line Corona Warriors

Academic year: 2021-22

<b>Organised by</b>	Mahatma Educational Society
<b>Date and time</b>	September 16, 2021
<b>Venue</b>	Dr. K. M. Vasudevan Pillai Campus, Panvel
<b>Brief about the activity / event</b>	<p>The Corona pandemic witnessed a large-scale demand for products like PPE kits, masks and face shields. These products were of utmost importance to frontline corona warriors who risked their lives while executing their day to day duties. With this growing demand Pillai Group of Institutions felt the need to make use of the 3D printing facility available at the Dr. K. M. Vasudevan Pillai Campus to manufacture Protective Face Shields for police, doctors and people involved in essential services. The faculty members of the facility were instrumental in undertaking and completing the initiative successfully. Students of the PHCOA institute were involved in distribution of the face shields to the front-line service providers. The beneficiaries of this initiative were the Khanda Colony Police, Rasayani Police, Kalamboli Police, Tilak Nagar Police, Suasth Hospital, Murbad Police &amp; Doctors</p>
<b>Remarks</b>	It was an event where the faculty and students came together for the protection and betterment of the frontline Corona warrior.

# TEAM PARIVARTAN

PROJECT REPORT 2018-20

Pillai HOC College of Architecture  
Rasayani

## ACKNOWLEDGEMENT

Team Parivartan is a COMMUNITY SERVICE wing of PILLAI HOC COLLEGE OF ARCHITECTURE . The entire mission of Parivartan began with painting the school in Panvel under Swacch Bharat program in Jan 2018. We are thankful to our college to initiate this community service wing that allowed us to explore real time projects in our academic curriculum. Working as a team under Parivartan, we students have developed team building skills, decision making abilities and explored several site challenges in our academic curriculum. The college has always been supportive to us with necessary equipment for the efficient functioning of the team. We thank our college for provision of basic materials, extra time for academic work submissions and proactive faculty inputs whenever necessary. The team has successfully completed a wide variety of projects from community spaces to public murals. We have gained lot of knowledge through working on real time projects with the support of our college.

## INTRODUCTION

Team Parivartan is a COMMUNITY SERVICE wing of PILLAI HOC COLLEGE OF ARCHITECTURE. It strives to connect people through design. The team works effortlessly to identify locations that require fruitful design intervention. The team analyses various contexts, then studies the problems and comes up with rational design/architectural solutions which are then implemented on site to solve various issues. Such kind of an effort exposes students to real life situations which they will face when they become architects.

## AIM

To revive the history of artist village designed by Charles Correa in CBD Belapur through public murals.

## OBJECTIVE

1. To observe and analyse the current scenario of Artist village and compare it with the past, study the differences between the two and ultimately give a tribute to Charles Correa with means of a public mural.
2. To make people aware about the history of artist village and its importance in terms of architecture.

## PROJECT BRIEF

The project deals with public murals, where we try to revive the history of artist village in cbd belapur through our murals. Artist village was designed by famous Charles Correa in 1983. Through this project we tried to bring back the time it was first built.

We chose to portray Artist Village's axonometric view in order to remember the early settlements and give a tribute to Charles Correa.

## PROCESS

We needed to understand the fundamentals of mural design to make one. Team Parivartan did case studies on different types of murals, and identified the ones which suited our cause the most.

The design was constituted after a lot of trial and error, the team made a computerised model of the earlier Artist village, similar to how Charles Correa had planned. This model was then picturized in order to align it along the complete length of the bridge so that it becomes a mural.

## Before Design intervention

## After Design intervention

Designed outdoor furniture and landscape installation for children. The play area is now more user friendly and teachers prefer to engage their students into outdoor activity more than the indoor classrooms.
