Five Days National Online Faculty Development Program on

Quantitative Methods for Qualitative Research in Architecture & Planning

Preamble

Quantitative methods for Qualitative Research in Architecture & Planning presents research as a systematic process, provides an in-depth explanation of different research methods, and explains how to choose appropriate research methods and conduct research studies. It outlines the process of documenting, disseminating knowledge and applying research findings in the fields of architectural design and planning.

The program would be beneficial for faculty members and practicing architects interested in research and those aspiring to a doctorate.

Research in Architecture

Date : 2nd - 5th August (10:30 am -3:30 pm)   **Registration Deadline : 29th July**

PREAMBLE
Research in architecture encompasses original investigations conducted in order to generate knowledge, insights, and understanding based on expertise, methods, and tools specific to the discipline.

Architectural research is an intrinsic part of the design process, but it is also a professional path that highlights scientific evidence and explores alternatives outside of pre-established norms. Creating a knowledge base can help achieve objectively better outcomes through design. This training program is designed to convey the importance of architectural research in practice and academia and to guide researchers through the opportunities and platforms currently available.

The program would be beneficial to academicians, research scholars, and practicing architects to create a better understanding of the types of architectural research, methodologies, scope, and opportunities as well as possibilities for pursuing a career in architectural research.

REGISTRATION FEES : Rs.3,000/-

Architecture and Planning

17th–21st August, 2022

Organized by

Department of Architecture and Planning
National Institute of Technology
Patna, Bihar - 800005
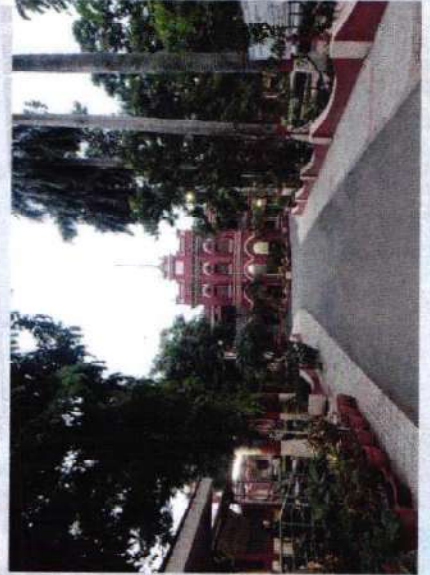

National Institute of Technology Patna

National Institute of Technology (NIT) Patna was formerly known as the Bihar College of Engineering Patna, a constituent engineering college under Patna University, until 27th Jan 2004.

NIT Patna marked its humble beginning in 1886 by establishing the pleaders' survey training school, which was subsequently upgraded to Bihar College of Engineering in 1924.

It was rechristened NIT Patna on 28th Jan 2004 as an Autonomous Institute under Ministry of Education, Govt. of India (formerly MHRD).

The Institute imparts high-level education, training, research and development in Architecture, Planning, science, engineering, technology and humanities along with high-quality education and values at UG, PG and PhD levels.

Department of Architecture and Planning

Department of Architecture and Planning is one of the oldest Department of the Institute, which was established in the year 1979. The Department of Architecture was set up in Bihar College of Engineering in the year 1979 under Patna University. It was the first time that architectural education had commenced in Bihar.

It is committed to provide quality teaching and research opportunities to its student. The department is dedicated to produce intellectuals and professionals who are well-versed in the state-of-the-art techniques and requisite skills in the field of Architecture and Planning.

The courses offered by the Department of Architecture and Planning are:

- Bachelor of Architecture
- Master of Architecture (Sustainable)
- Master of Urban and Regional Planning

Course Duration: 17th to 21st August, 2022

Certificates will be issued to all participants in particular categroty of registration, only after attending all the sessions. Last date for Registration is 15th August 2022

'LEARNING FROM HISTORY TO CREATE PARADIGMS INSPIRED BY ANCIENT WISDOM'

5 Days Online Faculty Development Programme

26TH - 30TH SEPTEMBER 2022

About Workshop

Man is a 'Social – Animal' is a well-known and understood adage. For every human to grow, progress, prosper and "sustain" naturally needs constant, continuous human company, care, cooperation to meet every individuals social, cultural, economical and most vital the psychological support and upliftment and the master designers of the past very well understood and realised this essence (the soul) and planned and built almost every type of built form be it dwellings, public spaces essentially being "Introvertly Humane" in form of clusters, wadas to ensure that the spaces both built and unbuilt develop, promote and "sustain" a constant intermingling, interaction, cooperation, coexistence, between every person occupying or using those spaces-"The Architecture".

The programme intends to deliberate with the intent to rekindle and retrieve the wisdom of the past and blend – synthesise it with advancement made by present day science and technology to regain lasting solutions essentially 'Humane' in their outlook and results.

Key Takeaway

Learning possible ways and means to:

- Discover the lost "Soul-the Man"
- Discover and revive the obliterated wisdom and reinfusing the soul in Architecture in new 'Avtar" recreated, rekindled by adopting modern science and technology.
- Way forward to shift from present day explanations and illustration to means and methods to incorporate, explanations, illustrations that possibly will be helpful to the faculty to make such above noted/ envisaged shift.

Notes:

- Teachers/ architects who wish to register for the training program either under Collaborative Training Program (CTP 2021-22) or as independent individuals may do so by filling up the Google form available on the given link.

PREAMBLE

Buildings are the vessels of our stories; they are our cultural artifacts and contain the stories of who we are, where we have come from, and where we shall be going to. The programme on ancient texts is intended towards understanding the probable conceptualisation and evolution of certain architectural spaces that are of profound interest and significance in contemporary times as well. It is an attempt to design a bridge that connects to the ancient systems and texts that have been anticipated as the origin of these architectural evolutions and probable influencers in its further development in India and the subcontinent. This training programme would focus on the correlation of Ancient Indian Texts to design philosophy of space, planning and ecology within the socio-cultural context.

Research in Architecture

Date : 2nd - 5th August (10:30 am -3:30 pm) | Registration Deadline : 29th July

PREAMBLE

Research in architecture encompasses original investigations conducted in order to generate knowledge, insights, and understanding based on expertise, methods, and tools specific to the discipline.

Architectural research is an intrinsic part of the design process, but it is also a professional path that highlights scientific evidence and explores alternatives outside of pre-established norms. Creating a knowledge base can help achieve objectively better outcomes through design. This training program is designed to convey the importance of architectural research in practice and academia and to guide researchers through the opportunities and platforms currently available.

The program would be beneficial to academicians, research scholars, and practicing architects to create a better understanding of the types of architectural research, methodologies, scope, and opportunities as well as possibilities for pursuing a career in architectural research.

REGISTRATION FEES : Rs.3,000/-
(Rupees three thousand only).
Colleges may nominate faculty under CTP 2021-22
