Brief about the activity/event	<p>All students and Faculty came up together to pledge to quit using tobacco products and advocate for a tobacco-free world.</p> <p>The oath:"I pledge to make a positive change in my life and the lives of those around me. I vow to quit using all forms of tobacco products and take charge of my health and well-being. I will strive to create a tobacco-free environment for myself and others.</p> <p>I promise to spread awareness about the dangers of tobacco use and its impact on health, environment, and society. I will support and encourage others who are trying to quit, and I will be an advocate for effective tobacco control policies.</p> <p>Today, I take this oath to build a healthier, tobacco-free future for myself and future generations. Together, we can make a difference and protect our health, our loved ones, and our planet from the devastating effects of tobacco."</p>
Remarks	<p>World No Tobacco Day served as a reminder of the critical need to combat tobacco use and its detrimental consequences on health and society.</p>

CONCEPT :

AMAL is a public toilet located in the busy crossroads of Panvel, Navi Mumbai.

The toilet is designed to be an ideal place for people with disabilities and those who are unable to use their own. The design also uses levels and heights in such a way that it showcases its uniqueness and aesthetic elements.

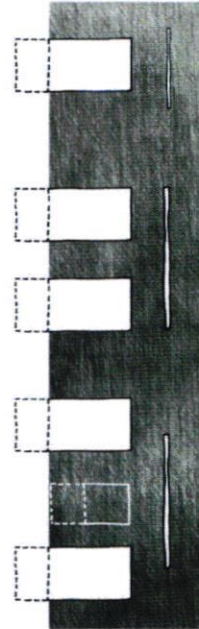

The form follows repetition of a single block and is as minimal and easy to access as possible. Separate entries are provided considering various user groups. The structure has entries from all four sides to welcome people from all directions.

The design has a sense of balance between form, functionality, aesthetics, appeal and accessibility. The centrally located toilet block and the design element at the entrance contributes towards the identity of the whole structure. With these design elements Amal can even act as a landmark for the area.

The symmetry in plan ensures simple design, executable even at other sites.

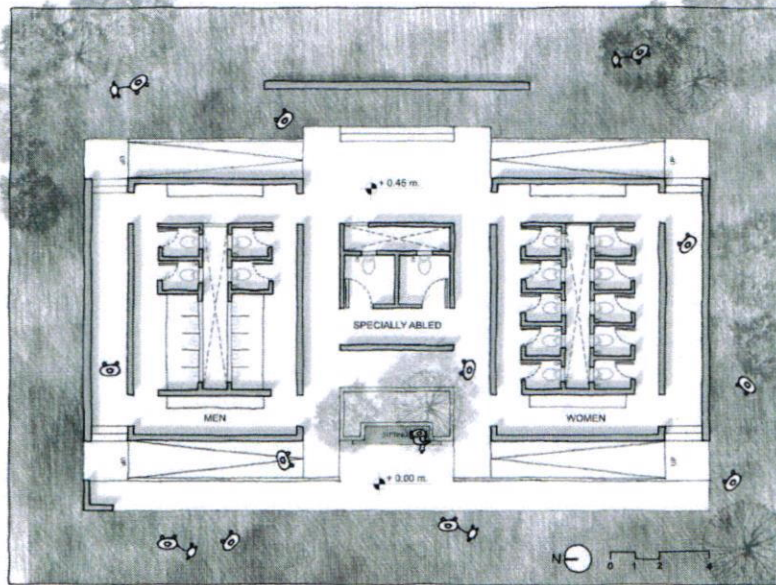

With toilet, comes a waiting area. The massing is done in such a way that there is a shaded waiting area at the centre of the structure.

The materials used in the construction imparts a sense of comfort and security to the users, while blending in the local environment and theme of the city. The material palette is kept as minimal as possible to keep it a low maintenance space.
