SITE VISIT

Academic year: 2022-23

Subject	Electives
Sem	Sem 1
Organised by	Pillai HOC College of Architecture, Rasayani
Objectives	<ul style="list-style-type: none">The site visit was organized to familiarize the students with the basics of human centric design with respect to the appearance of the space.
Date and time	6 Jan 2023
Venue	Rasayani
Faculty coordinator	Prof. Amrut Deshpande.
Supporting staff	Prof. Renuka Wazalwar.
No. of students present	42
Program approved by	Prof. Suchita Sayaji, Principal, PHCOA
Brief about the activity/event	The visit was planned to study the temporary structures in Rasayani. The Students documented anthropometric data. This helped them to familiarize with the scale and proportion. Students also studied different local materials which were used to build the temporary structures.
Remarks	Students got an opportunity to document temporary structure.

Prof. Renuka Wazalwar.
(Faculty Coordinator)

Before making plan we were taught lot of transportation by the faculty. This has actually made us understand of how a structure plan is drafted and with techniques. This has to use how the structure plan was made. Once by faculty transportation of ground etc. quite we at least also highlighted.

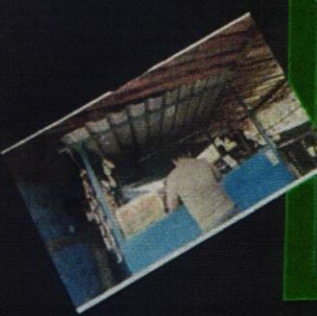

Section has its different story we had made two section horizontal and vertical section. It has to identify cut section.

We had made two elevation side elevation and front elevation. In this also we learned drawing orthographic and its application.

This project took us really hard to complete the work but had given a very learning and useful experience.

A very important observation that I have come across is visiting a site and working is not at all a easy job! But here at the same time it is also a fun to explore and deal with practical happenings. we people did many mistakes on the field while measuring while dealing with obstacles but then after taking good teaching from faculty we improved a lot. This project made it very clear about what a plan, section, elevation is how to draw it and what all mistakes we are not suppose to make. This was indeed a very useful and helpful activity.

We also notice few things and these were the things was shabby and not properly arranged if it could have been properly arranged if few more interior techniques would have been use. It would have changed the look of the house and succeeded in attracting more people.
