2.2.1: The institution assesses the learning levels of the students and organises special programmes for advanced learners and slow learners

1. Description

Special Programs For Advanced Learners And Slow Learners

For all learners:

Bridge Course

As Pillai HOC College of Architecture is situated in the outskirts of the main city limits, the students enrolled are first generation learners hailing from remote villages. As they are from varying backgrounds, there calls for the necessity of a week-long course to help bridge the gap between the higher secondary courses and the course of Architecture. A bridge course is being organized for one week and meticulous training in English, introduction to basics of various art and architecture by various hands on exercises, three-dimensional model making, theater performances etc., are provided for the fresher's.

A well-structured seven day session is planned in advance and the students are well informed about the same. The faculty interact and involve in various activities for a minimum of four hours per day and a discussion session is scheduled after each activity. This helped in creating awareness about the program as well as create unity and familiarity among themselves.

The students are motivated to interact and learn to express the importance of imagination and observation in the field of Architecture.

For Slow learners:

With help on interim evaluation such as studio esquisse, juries and discussions, the slow learners are identified and special remedial classes are conducted to enhance their architectural skills. With proper closer supervision and more individual attention, the low academic achiever's interest in learning is aroused and they make better progress. The remedial classes are designed with respect to various subjects and are scheduled post regular class timing.

Language & Presentation:

As there are students from various mediums, the students find difficulty in verbal presentation and body language. Therefore, various interim sessions are conducted to explain presentation skills both verbally and graphically, as architecture as a course demands both equally.

PTA Meeting:

Regular PTA meetings and conversations are conducted to discuss the student's performance and the issues faced by them. The remedial suggestions are shared with the parents as well to create an encouraging work environment at home.

For Advanced learners:

For the advanced or above average students, college takes interest in collaborating with various other institutions to enhance their skills. Excellent designs are encouraged to be participated in various themed competitions as they are the platforms that would uplift the students to various levels of exposure.

Orientation Course Semester 1, First Year B. Arch.

Academic year: 2023-2024

Organised by	Pillai HOC College of Architecture, Rasayani
Objectives	<ul style="list-style-type: none">• To introduce students to the basics of drawing on site.• To sensitize students to drawing and sketching as a means of observing and responding to their surroundings.
Date and time	During Orientation Week for Semester I
Venue	First Year Studio and PHCOA Campus
Faculty coordinator	Prof. Amrut Deshpande
Supporting staff	NA
No. of students	09
Classes approved by	Prof. Suchita Sayaji, Principal, PHCOA
Brief about the activity/event	First year students in their first week of college participated in a special drawing course for absolute beginners, based on the teaching methodology of prof. Betty Edwards. The course was conducted in a series of structured modules, of increasing complexity, including live sketching in the field.
Remarks	Students gained a lot of confidence, and were able to faithfully record their surroundings.

Remedial Classes for Semester 3, Architectural Building Construction and Materials

Academic year: 2023-2024

Organised by	Pillai HOC College of Architecture, Rasayani
Objectives	<ul style="list-style-type: none">• Giving students additional training and inputs for understanding RCC construction.• Solving student's doubts.
Date and time	17 th Feb, 24 th Feb, and 2 nd March 2024 Time: 10 am to 4:30 pm
Venue	Second Year Studio, 2 nd Floor
Faculty coordinator	Prof. Abhishek Chakraborty
Supporting staff	Prof. Sagarika Mukherjee
No. of students	41
Classes approved by	Prof. Suchita Sayaji, Principal, PHCOA
Brief about the activity/event	Students from second year were given additional time and training for better understanding of RCC structures. There was doubt solving session and inputs were given by faculty members so that students can perform better in exams. Students also got additional time and faculty support to complete their drawing sheets for internal submissions.
Remarks	Students were able to complete their drawing sheets and expressed satisfaction of being more confident about the subject matter at the end of the remedial classes.
