2.3.2: Teachers use ICT enabled tools for effective teaching-learning process

1. Description

Pillai HOC College of Architecture, Rasayani has always ensured high-quality education through effective classroom teaching, interactive vocational training, and interaction with industries and other organisations. It aims at giving a high-quality learning experience to a diverse population of students by providing an excellent infrastructure including physical facilities and advanced technical teaching aids which contribute to an enriching and conducive learning environment.

The institution has well-equipped modern classrooms with audio-visual facilities that facilitate interactive and engaging learning experiences. Teachers use the projector system in classrooms for teaching technical and theory subjects. The institution has a smartboard system where lectures by faculty on additional subject topics can be pre-recorded and the recorded videos can be accessed by students at a later date. This ensures enhanced and continuous learning experience for students.

The institution has two state of the art conclaves (seminar halls) with ICT facilities like projector, audio-visual facility, for conducting lectures by invited subject experts.

The library is spacious and well-maintained, with an extensive collection of books, journals, and digital resources.
