2.5.1: Mechanism of internal assessment is transparent and robust in terms of frequency and mode

1. Description

The assessment mechanism consists of either only internal or both internal and external evaluation. In each semester, there are theory subjects which require only lectures and studio subjects which require lectures and studio hours for working on design and technical drawings.

For internal assessment, the faculty formulates the lesson plan, students are given opportunity to provide feedback on its pacing and requirements. Students are assessed for the work done in the studio as per the teaching plan. A cumulative monthly progress report consisting of internal marks and attendance is circulated to parents to keep them informed of their ward's performance.

For external assessment, theory and viva voce examinations are conducted by the College except in Semesters VI and X, in which examinations are conducted by the University of Mumbai.

For viva voce exams, external subject experts like both practicing architects and academicians are invited as examiners. One of the external examiners is appointed as Chairperson. At the end of the exam, the portfolios of the students failing to achieve the passing marks, students scoring more than 75% marks are reviewed by all the external examiners and the final decision is taken by the Chairperson in consultation with all external examiners.
